

# GIVING BACK

A cornerstone of our philosophy at Banyan Workspace is our commitment to giving back. We have created a model that embraces select non-profits, allowing both ourselves and our members to give back financially as well as by donating our time.

# FINANCIAL SUPPORT

Each month 2% of every member's rate is donated to the non-profit of their choice (\*chosen from our 4 selected non-profits).

Photograph courtesy of OneSky

Our members may then choose to match this with a further 2% donation to help make an even greater difference to the non-profits we support.

# TIME & VENUE

Photograph courtesy of Redress

Every 3 months we organise a Banyan Workspace Giving Back Day where we donate our teams time to help in the best way we can.

As a Banyan Workspace member, your team will be invited to participate in the activities we organise and by doing so provide a CSR and team building opportunity for you and your organisation. Activities range from a beach clean-up with Plastic Free Seas to helping at the One Sky centre in Sham Shui Po.

We regularly host talks and events in our space to allow our charity partners to share their message and engage with our members.

# OUR NON-PROFIT PARTNERS

Teach For Hong Kong (TFHK) is a growing movement of young leaders that drive systemic changes in education with cross-sector collaboration. Through its one year Fellowship Program, TFHK recruits and empowers the most promising and passionate young leaders to serve in underprivileged schools as full-time teachers.

OneSky teaches communities and caregivers to provide nurturing responsive care and early education that unlocks the vast potential hidden in our world's most vulnerable young children.

# OUR NON-PROFIT PARTNERS

Redress is a local environmental charity dedicated to reducing textile waste in the fashion industry. If you would like to support their work to transform clothing waste and promote a circular economy for fashion, they are always looking for volunteers to sort clothes for upcycling, recycling and re-distribution to 23+ local charity partners.

Plastic Free Seas (PFS) main purpose is to provide free education to students on plastic marine pollution – the causes, effects and most importantly the solutions. They are a leader in marine-focused environmental education in Hong Kong. To date, Plastic Free Seas have had a presence in more than 125 schools and have reached over 48,000 students and teachers.
